

Lomond School Means Tested Scholarships 2023/24

Academic Scholarship

Lomond School provides pupils with significant academic support but also sets academic challenge with high expectations. We teach our pupils the importance of having an inquisitive and enquiring mind and they enjoy opportunities to employ critical and creative thinking skills whilst examining complex problems. Our pupils achieve exceptionally high grades in their examinations and we regularly encourage participation in national competitions. Recent successes in this area include the Jaguar Challenge; Junior and Senior Mathematical Challenges; Physics and Biology Olympiads and the Royal Navy Engineering Challenge.

Academic Scholarships are awarded to pupils who demonstrate outstanding potential in their academic studies and who display a very strong performance in a specific subject area or across all disciplines.

Criteria

Candidates will undertake standardised tests in English and Maths and specific subject papers where appropriate. They will also be required to submit a piece of writing and undertake an interview.

Please note that scholarships are awarded by the school's Scholarship Committee and their decision is final. It is not possible to appeal the decision of the committee nor will feedback be given regarding the reasons for their decision. Scholarships are awarded for a specific entry point and cannot be deferred. All scholarships are subject to verification of relevant qualifications and a satisfactory pupil testimonial from the existing school. Acceptance of a scholarship implies consent under the Data Protection Act for the School to keep in contact with the pupil and for the pupil to be published in relevant publicity materials. If an applicant is selected to receive a Scholarship and they choose to decline the Award, then the Scholarship will be void for the academic year of application.
